

GALAXY INTEGRATIONS:

VISITOR MANAGEMENT

Galaxy's visitor management allows tracking of residential or corporate guests and personnel. Record where individuals have been, restrict/allow access to certain people, and create a portfolio of profiles.

1. Visitor Presses Galaxy Intercom:

- Works for Main Entrance
- Works for Secondary Entrances as needed

2. Visitor requests can go to the Mobile Apps or Concierge Phone:

- Automatic video call of visitor
- Graphic location of door location
- Administrator verifies identity and/or need for entry
- Visitor is granted access
- Door opening is logged

3. Enrollment into Visitor Management System:

- ID is scanned into system
- Visitor photo is captured
- Visitor badge is printed and optional Access Control card is issued

BENEFITS:

- Visitor can be issued a temporary access control credential
- Self-Expiring label stock is available
- All visitors remain in the system eliminating data capture on repeat visits
- All activity is logged and searchable/reportable
- Access Credentials can be issued from the Visitor Management
