# GOVERNMENT SAFETY

ACCESS EXCELLENCE

## Protect the Government to Focus on Services.

GalaxyControl Systems a leading manufacturer of high-quality integrated access control and security systems. Galaxy products are sold, installed, and serviced by a network of highly trained factory-certified access control and security dealers and integrators.

## Why Galaxy Control Systems

Galaxy products are made in the USA. Galaxy offers an unique 2 year unconditional warranty which covers anything from lighting, floods, tornadoes, and earthquakes.

## SG Enterprise Access Control

System Galaxy (SG) is an enterprise class access control and security management system. The system is network (LAN/WAN) capable, and integrates sub-systems including badging, CCTV, elevator control, key control, time & attendance, and facility management. System Galaxy can control and monitor multiple world-wide sites under a centralized database using existing network infrastructure. The System galaxy software uses and ODBC compliant database that can interface with other standardized databases.

## US Government Compliant

- HSPD-12 & FIPS Compliant
- FICAM Approved APL #s 10083, 10097
- PIV, PIV-II, TWIC cards

Galaxy Authorized Government Dealers include a select number of qualified security integration companies that have a proven record of performance with Government clients worldwide, including DOD, DOJ, US Marine Corps, US Coast Guard, FBO, US Park Service, and many more.

GSA Contract # GS-07F-0092M  
 Access Control System SIN # 246-35-1, 246-1000, 246-35-1  
 Ancillary Services & Installation SIN # 246-50  
 GSA Contract # GS-35F-0647Y  
 Hardware, Software, & Services SIN # 132-60F, 132-62, 132-8

## Features

- Access Control
- CAC-Legacy, Transition, Endpoint
- Risk Management Framework (RMF) formerly DIACAP
- Local or Remote Control
- Elevator Control
- Digital Video Recording
- CCTV
- Biometrics
- Photo Imaging/ Badging
- Facility Control
- Intrusion Detection
- Visitor Management
- Photo Verification
- Time & Attendance
- Facility Management
- LAN/WAN Connectivity
- Enterprise Class Solution
- Reports & Graphics
- MIFARE® Readers
- CAC Card Readers: Legacy, Transition, & Endpoint
- Proximity Readers
- Web Module
